SPECIFICATIONS FOR ASPHALT EMULSIONS AND ASSOCIATED PRODUCTS:**Description:**

This Price Agreement is for furnishing and/or application of asphalt materials. The following sections of the New Mexico State Department of Transportation Standard Specifications for Highway and Bridge Construction, Special Provisions and Supplemental Specifications (current editions) shall be an integral part of these specifications. Section 104- Scope Of Work, Section 105 - Control Of Work, Section 106 - Control Of Materials, Section 402 - Asphalt Materials and Minerals Admixtures, Section 407 - Tack Coat, Section 408 - Prime Coat, Special Provision 407-A – Rubberized Fog Seal, and Special Provision 407B - Colloid Asphalt Emulsion.

Sampling & Testing:

When supplying asphalt products to the NMDOT, the vendor shall abide by the following in addition to section 402.2.1.5 Sampling and Testing:

1. On Friday of each week, in which the vendor is shipping asphalt products, the vendor will provide the NMDOT State Materials Bureau a report of the following information;
 - A. Customer (District Patrol or District Crew)
 - B. Project Scope
 - C. Type of Material
 - D. Amount of Material Supplied per Week
 - E. Amount of Material per Project
 - F. Price Agreement Item Number of Material
2. The vendor will send certificates of compliance with each load of asphalt product delivered to the jobsite. The certificates of compliance will be given to the District Engineer or their designee at the jobsite. All tankers shall be sealed when they arrive to the jobsite.
3. When requested by the NMDOT, vendor(s) shall provide samples, using AASHTO T40, Standard Method of Test for Sampling Asphalt Materials under the direct supervision of certified sampling personnel and witnessed by the District Engineer or their designee. Vendor shall have a certified sampler at all projects where sampling is requested by the NMDOT within three (3) hours from the time of request. Failure to have a certified sampler at the discharge location specified, within this required timeframe can be grounds for rejection of the load. The determination to reject a load will be solely at the discretion of the District Engineer or their designee. The determination factors for a load being rejected shall be documented in writing and become part of the project file. All cost incurred by the vendor for rejected loads shall be the responsibility of the vendor.

Samples will be taken from the discharge side of the delivery truck at the jobsite and can be taken for any project material purchased under this price agreement. Samples shall be taken on the base emulsions and not on dilutes. The minimum sampling frequency will be one sample, per month statewide. A sample shall consist of three (3) separate half gallon sub-samples. Acceptable sample containers shall be wide mouth jars made of plastic with lined screw lid meeting AASHTO T40-02, 7.1.2 and 7.1.3. All sample containers shall be identified using department Form MT-85. On projects selected to submit samples, the District Engineer or their designee shall immediately ship the samples to the NMDOT State Materials Bureau (Chemistry Unit) for testing.

4. All three sub-samples shall be tested by the NMDOT State Materials Bureau or a certified lab on contract with the NMDOT. If two of the test results of the sub-samples designate failing material and do not meet specifications in the requirements identified in this agreement, then applicable factors in Table 1 “Pay Adjustment Factor Based on Emulsified Asphalt Test Results” will be implemented by the District Engineer or their designee. The Pay Adjustment Factor will apply to the total tonnage of material used for the one (1) day’s total production for that project, for the day the sample was taken. If there are multiple failures for each test on the same sample, the District Engineer or their designee will use the lowest pay adjustment factor of all the tests. Haul tickets shall be adjusted to reflect these price adjustments.

If the vendor desires to appeal the price adjustment, the vendor shall submit a written request to the District Engineer or their designee within fourteen (14) calendar days of the reported test results. The request must describe, in full, the grounds and circumstances for the appeal. The appeal request will be reviewed by the District Engineer or the Maintenance ADE and will either be accepted or denied. The District Engineer or Maintenance ADE shall issue a letter stating the grounds for the decision to the vendor and any applicable price adjustment will be executed on the invoice.

The vendor shall provide certificates of compliance for all products to the District Engineer or their designee.

Project Delivery Requirements:

Project Delivery Requirements, as described in the Utilization Of Vendors section, requires that vendors be able to meet all project requirements including, but not limited to, being able to meet the project schedule, ensuring that materials and equipment (tanker and distributors) are at the job site as scheduled, ensuring that samplers, supplied by the vendor, are available to sample when requested and within the required time limits and ensure that all material delivered to the project meets specification. A vendor failing to meet these requirements may be deemed unresponsive by the District Engineer or their designee and be disqualified. The vendor will be responsible for all costs incurred, by the vendor, which the NMDOT determines as not being applicable to the project. The NMDOT reserves the right to utilize a secondary vendor for the purchase order.

Demurrage:

Demurrage may be charged by the vendor in the event a loaded tanker truck is on-site at the specified time, but is unable to unload asphaltic materials due to delay caused by the NMDOT. In the event demurrage charges are required by the vendor, demurrage charges shall begin two (2) hours after the tanker truck arrives on site at the specified time and end once the tanker truck is unloaded. A two (2) hour unloading allotment time shall be provided by the vendor at no charge.

Freight for Returns:

Freight for returns may be charged by the vendor in the event a fully or partially loaded tanker is returned back to the supplier's plant by the District Engineer or their designee. Freight for returns can only be charged if the loaded tanker arrived on-site at the specified time, with the specified load, but was unable to be utilized on the project due to circumstances beyond the vendor's control. Freight for returns applies to costs incurred by the vendor and shall be quantified and paid by the number of tons returned. Pump and hose charges associated with return shall be inclusive of the vendors bid for the item freight for return.

Method of Measurement and Payment:

All quantities are to be measured by the District Engineer or their designee and shall be considered to be final and all payments for same will be made on this basis.

Electronic Record and Signature Disclosure		

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

A. ELECTRONIC RECORD AND SIGNATURE DISCLOSURE (ERSD)

From time to time, New Mexico General Services Department (GSD), on behalf of the State of New Mexico (SONM), may be required by law to provide you with certain written notices or disclosures. Stated below are the terms and conditions for GSD's providing you such notices and disclosures electronically through the DocuSign system. Please read this information carefully. If you are able to access this information electronically and agree to **this Electronic Record and Signature Disclosure (ERSD)**, please confirm your agreement by selecting the check-box next to "I agree to use electronic records and signatures" before clicking "CONTINUE" within the DocuSign system.

B. Obtaining paper copies

At any time up to twenty (20) calendar days following your use of DocuSign to electronically sign a document, you may request a paper copy of any record provided or made available electronically to you by GSD. You will have the ability to download and print documents SONM sends you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a twenty (20) calendar day period after such documents are first sent to you. Following the twenty (20) day period, if you want GSD to send you paper copies of any such documents from GSD's office, you will be charged a \$1.00 per-page fee plus postage. You may request delivery of such paper copies from GSD by following the procedure stated in Section H, below.

C. Withdrawing your consent

If you decide to receive notices and disclosures from GSD electronically, you may at any time change your mind and inform GSD you want to receive required notices and disclosures only in paper format. The procedure concerning how you may inform GSD of your decision to receive future notices and disclosures in paper format as well as withdraw your consent to receive notices and disclosures electronically is stated in Section D, immediately below.

D. Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed with which GSD will be able to complete certain steps in specific transactions and deliver paper copies to you. GSD will need: (1) to send the required notices or disclosures to you in paper format; and (2) wait until GSD receives your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from SONM or to electronically sign documents generated and sent to you from SONM.

E. All notices and disclosures will be sent to you electronically

Unless you inform GSD otherwise according to these procedures, GSD will electronically provide you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements and other documents that are required to be provided or made available to you during the course of your electronic signature relationship with SONM. To reduce the possibility of inadvertent non-receipt, GSD prefers to provide all required notices and disclosures by the same method and to the same email or physical address that you furnish to GSD. Thus, you may receive the disclosures and notices electronically or in paper form. If you do not agree with this procedure, please inform GSD according to the procedures stated in Section I, below. Please also refer to Section D, immediately above, which states the consequences resulting from your declination of electronic delivery of notices and disclosures.

F. How to contact GSD:

You may inform General Services Department (GSD) of any changes you select regarding State Purchasing Division's (SPD) electronic communications with you, to request paper copies of certain information from SPD, and to withdraw your prior consent to receive notices and disclosures electronically by emailing your request(s) to SPD at: GSD.SPInfo@state.nm.us

G. To advise SPD of your new email address

To inform SPD of a change in the email address to which SPD sends you notices and disclosures electronically, you must send an email to SPD at GSD.SPInfo@state.nm.us and in the body of such request you must include your previous and new email addresses.

H. To request paper copies from SPD

To request delivery of paper copies of electronic notices and disclosures that DocuSign and/or SPD have previously provided to you, you must send an email to SPD at GSD.SPInfo@state.nm.us and in the body of your email request state your email address, full name, mailing address, and telephone number. SPD will charge you a \$1.00 per page copy fee plus postage.

I. To withdraw your consent with SPD

To inform SPD that you no longer wish to receive notices and disclosures in electronic format you may:

(1) Decline to sign a document from within a signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may:

(2) Send SPD an email to GSD.SPDinfo@state.nm.us and in the body of your request state your email address, full name, mailing address, and telephone number.

J. Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current DocuSign system requirements may be found at:

<https://support.docusign.com/guides/signer-guide-signing-system-requirements>

K. Acknowledging your access and consent to receive and sign documents electronically
